

## Full control

To surrender my heart's desires  
Not an easy thing to do.  
But you're ever true and faithful,  
You will always see me through.  
Letting go of my plans and dreams  
As I grasp all the things you hold,  
Now I walk in faith and triumph,  
knowing you're in full control.

These are times when the shadows lengthen;  
I don't fully understand  
The direction you have for me,  
How it all fits in your plans.  
But I know you are always faithful,  
And in this you'll be faithful still.  
Give me strength when doubts assail me,  
Trusting in your perfect will.

"Father I surrender", let this my anthem be.  
Give me now the eyes of faith to see  
Your will for me.

To surrender my heart's desires  
Not an easy thing to do.  
But you're ever true and faithful,  
You will always see me through.  
Letting go of my plans and dreams  
As I grasp all the things you hold,  
Now I walk in faith and triumph,  
knowing you're in full control.

Lord take full control.  
Lord take full control.  
All that I am,  
All that I shall be.  
Lord take full control.

"Father I surrender", let this my anthem be.  
Give me now the eyes of faith to see  
Your will for me.

I surrender my heart's desires  
Not an easy thing to do.  
You are ever true and faithful,  
You will always see me through.  
I let go of my plans and dreams  
As I grasp all the things you hold,  
I will surrender my whole life to you,  
knowing you're in full control.  
I will surrender my whole life to you,  
knowing you're in full control.
