

## On our way

We are on our way

We are on our way  
on our way to an eternal feast.  
And at times I hear the cheers,  
though it's somewhere that I've not yet been.

We travel as a group  
We do not have much time, it seems  
and we hold each other close  
so we do not lose our way, our dreams.

And the centuries go by,  
so many cultures, ev'ry face  
is a link through time and space.  
We're a community of grace.

Yes, I may sample what is coming.  
That brings me closer to the goal.  
Until the heavens bid us welcome,  
welcome us home.

And we are on our way

We are on our way  
There are valleys we will have to cross.  
The reason is not known,  
but we hope that we will not get lost.

When the night begins  
and the darkness just goes on and on  
we look to Him for strength  
( ) 'cause He's the one who keeps us strong.

You may dream about that day,  
but it is still a mystery.  
All our words cannot convey  
just how amazing it will be.

As we now share each other's sorrows,  
with all our travels still ahead,  
all is provided for the journey.  
We will be led.

Come, let us travel to the future  
What a great plan our God's prepared.  
And because He's the one who wrote it  
I am not scared

'Cause we are on our way  
We are on our way

One day the waiting will be over,  
then I will cheer before His throne.  
And even now I know for certain,  
He's calling me home.

Yes, ev'rything will be accomplished,  
and all our trav'ling days will cease.  
Then we will throw off all our burdens,  
finding release.
