

**6 Hymn** . Text & music: Stein Jonassen © Continental Sound Music, Rotterdam, The Netherlands –

I shines so bright, this world we`re given, wrapped in mighty mountains, fields of gold  
Shines your light, `cause You were driven to make us this wonder to behold

Your heart sang colours to creation, forest emerald green, sea sapphire blue  
Paint your cross on every nation, we hold high this legacy from You

Lord, we stand as one in prayer for our time, our land  
Help us care, have no fear, hold on to your hand  
Do protect us one and all, God, let all the pain and fighting cease  
Father, let your fire fall  
In every land and heart we pray for peace

Snow diamond white, red ruby sunrise, this love for our land is strong and true  
If we see ourselves through your eyes, there`s no hate, no way, no borders, too

Lord, we stand as one in prayer for our time, our land  
Help us care, have no fear, hold on to your hand  
Do protect us one and all, God, let all the pain and fighting cease  
Father, let your fire fall  
In every land and heart we pray for peace

Those who walked before us trusted in your word  
Help us do what they did, we walk in their foot-steps, live what we`ve heard

Lord, we stand as one in prayer for our time, our land  
Help us care, have no fear, hold on to your hand  
Do protect us one and all, God, let all the pain and fighting cease  
Father, let your fire fall  
In every land and heart we pray for peace
